# Amador County Collaborative Ingress/Egress and Education Project

---

In 2019 the AFSC received funding, from CalFire Wildfire Prevention grant program, to continue developing of evacuation map planning, assist FireWise Communities, and implement roadside vegetation clearing on 60 miles of private and public road.

---

In 2022 the AFSC received additional funding, from CalFire Wildfire Prevention grant program, to treat an additional 40 miles of road .

---

In 2022, the AFSC and Amador County received the Amador County Evacuation Improvement grant, to treat an additional 11 miles of road.

---

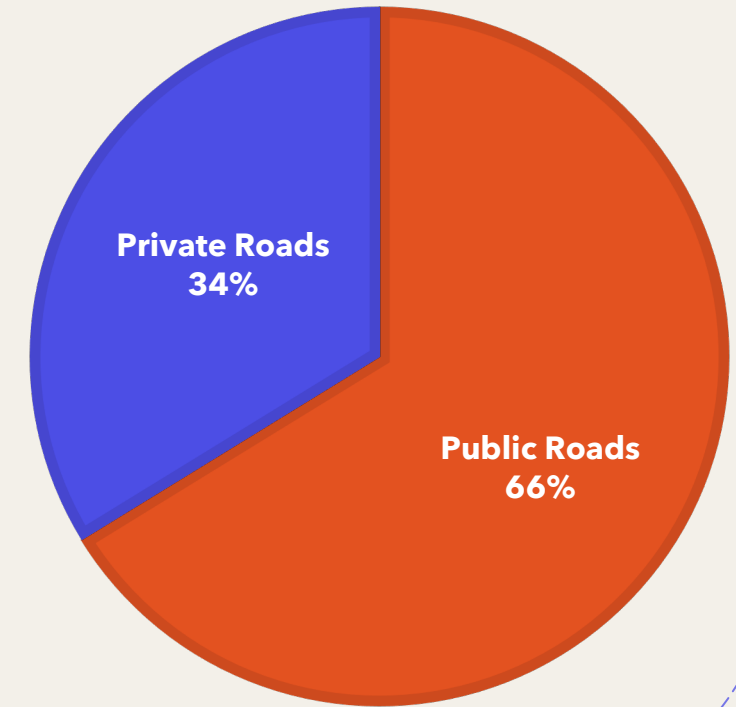

Through the uses of priority evacuation mapping and community submitted projects that AFSC will treat 111 miles of Amador County roads prior to March 2025.

# Completed Projects

- + In 2022/2023 a total of 160.68 acres of treatment along roadways was completed to improve ingress/egress.
- + Roughly 22 miles of Public Roads were treated
- + Roughly 11.2 miles of Private Roads were treated
- + Amador County Public Works followed behind treatment crews and applied herbicide on the 106 acres of area treated along public roads.

# What's Next?

- + Release RFP for next private roads phase
- + Working with County on developing maintenance schedule for County Roads
- + Develop better mapping protocol for tracking completed work and scheduling maintenance needs
- + Develop/discuss funding herbicide application budget for County Roads
- + Communities identify priority road sections. AFSC will work with communities to get Rights of Entry for properties along all roadways. This is an incredibly time consuming and important part of the project.
